SUBJECT INDEX

A

- AADS: in dental education and licensure reform, Sept./Oct. 212
 Abrasiveness: of restorations, gold and ceramic, Jan./Feb. 38-39
 Abutment: UCLA, advantages and disadvantages, July/Aug. 149-150
 Accident insurance: student, Jan./Feb. 25
 Acne: adult, Mar./Apr. 69
 Activator: for open bite, class II, Sept./Oct. 232
 Adhesion promoters: in fracture resistance of pins, Nov./Dec. 272
 Adhesive
 liners, incorporating into amalgam, Jan./Feb. 42-43
 metal partial crowns for attrition defect restoration, July/Aug. 161
 Adolescence: mandibular advancement postsurgical growth during, Jan./Feb. 30-31
 Aged
 caries prediction model, Mar./Apr. 73-74
 vitamin deficiency, oral manifestations, Jan./Feb. 17
 AIDS
 increase in women, July/Aug. 189
 transmission, public attitudes toward, July/Aug. 169
 (See also HIV)
 Air-water syringe tips: sterilization of, May/June 124
 Alcoholism
 causes of, Sept./Oct. 214
 genes and, July/Aug. 189-190
 Allergy: reactions: to rubber gloves, Nov./Dec. 245
 Allotment: for ridge implants, Sept./Oct. 201
 Alloys: amalgam, long-term assessment, Mar./Apr. 81-82
 Alopecia, Jan./Feb. 24
 Aluminum: and Alzheimer's disease, Nov./Dec. 277
 Alveolar osteitis: postop, chlorhexidine for, Mar./Apr. 90-91
 Alzheimer's disease
 aluminum and, Nov./Dec. 325
 research in, Sept./Oct. 213
 Amalgam
 adhesive liners incorporating into, Jan./Feb. 42-43
 alloys, long-term assessment, Mar./Apr. 81-82
 as cost effective, July/Aug. 176-177
 derived mercury, Sept./Oct. 196-197
 informed consent and, Jan./Feb. 21
 mercury toxicity risk and, Jan./Feb. 38
 onlay, technique modification, Jan./Feb. 15-16
 outlawing of, July/Aug. 191-192
 with resin, composite, May/June 112
 vs. composite resin in postoperative pain, Jan./Feb. 43-44
 Analgesic naproxen: use guidelines, Sept./Oct. 203
 Anemia: aplastic, and viral hepatitis, Sept./Oct. 238
 Anesthesia
 for endodontics, Sept./Oct. 196
 general, and conscious sedation, Jan./Feb. 4
 Anesthetic: local, blood pressure with, Nov./Dec. 321
 Antidepressant use: treatment concerns during, Sept./Oct. 204-205
 Anxiety, dental
 beta blocker for, Jan./Feb. 26
 implosion therapy, Sept./Oct. 216
 Apatite sealer, Nov./Dec. 267
 Aplastic anemia: and viral hepatitis, Sept./Oct. 238
 Appliance: silicone elastomeric, to close space, Jan./Feb. 9
 Area management: for boredom and motivation of staff members, Mar./Apr. 64

- Artificial organs, Nov./Dec. 260
 Atrophy: preprosthetic surgery reducing, Nov./Dec. 275
 Attachment
 gain and probing forces, Nov./Dec. 275-276
 for implant supported prosthesis, intraoral connection, Mar./Apr. 54-55
 Automobile recycling, May/June 119-120

B

- Bacteria: root canal, irrigation variables studies on, July/Aug. 171
 Bar splint: cross-arch, May/June 109-110
 Beta blocker: for dental anxiety, Jan./Feb. 26
 Bleaching
 agents, leakage through intermediate restorative material, Mar./Apr. 79
 effects on cervical root surfaces, July/Aug. 171-172
 of enamel for stained teeth, Sept./Oct. 205-206
 gel, pulp damage by, Nov./Dec. 254
 home agents damaging composite resin, Nov./Dec. 267
 internal, modified, May/June 110-111
 monitoring of, Sept./Oct. 209-210
 sodium perborate with water for, Jan./Feb. 40-41
 solutions not affecting enamel surface texture, Jan./Feb. 41-42
 technique and etching, Mar./Apr. 89-90
 Bleeding: coagulopathy in
 Blockout technique: for jaw relation records, Mar./Apr. 54
 Blood
 mercury concentrations and spills, July/Aug. 183
 pressure with local anesthetic, Nov./Dec. 273
 screening studies, in dental schools, May/June 117
 Board exam pass rates: variations from state to state, Nov./Dec. 246
 Bone
 integration and HA-coated implants, Mar./Apr. 77
 loss
 Periosteal results and, Nov./Dec. 264
 pocking probing and radiography to measure, Nov./Dec. 269
 periapical lesions, digital image texture analysis of, Nov./Dec. 270
 Boredom: of staff members, area management for, Mar./Apr. 64
 Box corners: updated software improving, Nov./Dec. 264
 Brackets: ceramic, common problems with, Nov./Dec. 249
 Brain: in loss of memory, Sept./Oct. 214
 Breakfast: for the dentist, July/Aug. 167
 Breast-fed children: microorganisms causing rampant caries, Nov./Dec. 268
 Brush
 design increasing brushing, Jan./Feb. 32-33
 interdental, for plaque removal, Mar./Apr. 88
 Brushing
 with fluoride dentifrice, chemical composition of plaque after, Mar./Apr. 80
 mechanical devices, comparison of, May/June 122
 supervised, and caries inhibition, Jan./Feb. 29
 toothbrush design increasing, Jan./Feb. 32-33
 Bruxing: damaging dentition, restoration, Sept./Oct. 207-208

C

- CAD-CAM veneers, Sept./Oct. 221
 Calcium hydroxide: for luxated incisors, Sept./Oct. 232-234
 Calcium phosphate solution: acidic, and fluoride uptake, Jan./Feb. 28
 Canal (see Root canal)
 Candidiasis: oral, May/June 100
 Canine: palatally impacted maxillary, lowering rate of, Nov./Dec. 249-250
 Carbamide peroxide: adversely affecting composite restorations, Sept./Oct. 228-229
 Carcinoma, squamous cell
 after transplant, July/Aug. 154
 unusual case, Jan./Feb. 8-9
 Cardiomyoplasty, May/June 119
 Caries
 approximal, optical testing of, Mar./Apr. 72-73
 high susceptibility, treatment with individualization, Sept./Oct. 198
 as infectious disease, Nov./Dec. 244-245
 inhibition and supervised brushing, Jan./Feb. 29
 occlusal fissure, dentin involvement beneath, Nov./Dec. 269-270
 past experience predicting future, Sept./Oct. 217
 prediction model, geriatric, Mar./Apr. 73-74
 in primary teeth predicting caries in permanent first molars, Sept./Oct. 216-217
 problem in U.S., Jan./Feb. 27-28
 rampant, microorganisms causing in breast-fed children, Nov./Dec. 268
 rates
 assessment by classifications, May/June 136
 different classifications for assessment, July/Aug. 170-171
 root, factors in, Mar./Apr. 74
 scoring methods, July/Aug. 170
 secondary, marginal stains indicating, Mar./Apr. 73
 Cartridges: storage temperature effecting, July/Aug. 175
 Cast: impression technique for adjacent veneers, Jan./Feb. 14-15
 Cavity depth: and restoration stress, May/June 128
 CEJ protective base layer: reducing H₂O₂ penetration, July/Aug. 174
 Cellulitis: orbital, complications for, Mar./Apr. 56-57
 Cement
 glass ionomer, repair, Nov./Dec. 266
 resin, as more retentive than zinc phosphate, Sept./Oct. 219-220
 Ceramic
 brackets, common problems with, Nov./Dec. 249
 crowns, marginal gaps, Nov./Dec. 271-272
 inlay, pressed glass, good ratings, July/Aug. 182
 restorations, abrasiveness of, Jan./Feb. 38-39
 Cheaters: scientific, Mar./Apr. 68
 Chewing gum: and plaque pH, Nov./Dec. 262-263
 Children
 Hispanic, and dentistry, Nov./Dec. 252-253
 hypertensive, Mar./Apr. 69
 masks affecting, May/June 121
 nitrous oxide for, Mar./Apr. 70
 occlusal surface management in permanent molars, Jan./Feb. 9-10
 periodontitis, generalized, Jan./Feb. 11
 with physical and psychological problems, Mar./Apr. 60-61
 refugee, in American schools, May/June 140-141

stuttering, dental management for, Nov./Dec. 252

Chlorhexidine
not needed in subgingival irrigation, Sept./Oct. 225-227
for postop alveolar osteitis, Mar./Apr. 90-91
swabbing effective for disabled, Sept./Oct. 230-231
varnish suppressing mutans *Streptococci*, July/Aug. 177

Coagulopathy: in excessive bleeding, Sept./Oct. 200

Cockroaches, May/June 141

Collagen barrier: for furcation defects, Sept./Oct. 235

Color
changes in postcure composite, Jan./Feb. 36-37
of porcelain veneers, matching, Mar./Apr. 62-63

Composite
indirect, reducing voids, Mar./Apr. 82-83
postcure, color changes in, Jan./Feb. 36-37
resin (*see* Resin, composite)
restorations, posterior, indications for use, Mar./Apr. 53-54

Computer
designed inlays, May/June 128-129
as human, May/June 119

Condylar
position, stable in treatment, Mar./Apr. 91-92
positioning, three-dimensional, method, May/June 115
reduction not necessary in children, Sept./Oct. 231-232

Consent: informed, amalgam, fluoride and HIV, Jan./Feb. 21

Consumer perception: of food stickiness, Mar./Apr. 83

Contamination
cross-contamination control, May/June 123
tubing for dental unit resisting, Jan./Feb. 33-34

Corticosteroids: dental, adverse reaction to, July/Aug. 154-155

Cost
effectiveness of amalgam, July/Aug. 176-177
of prescription drugs, Jan./Feb. 24

Cross-arch bar splint, May/June 109-110

Cross-contamination: control of, May/June 123

Crossbite correction: early treatment of, Mar./Apr. 59-60

Crowns
adhesive metal partial, for attrition defect restoration, July/Aug. 161
ceramic marginal gaps, Nov./Dec. 271-272

Cryosurgery: in lip hemangioma, Nov./Dec. 274

Curing: composite resins, May/June 111

Curriculum
as adequate according to dental senior students, May/June 118
university, analysis and reform, Mar./Apr. 66

Cyclosporin: in gingival overgrowth, Sept./Oct. 224-225

Cyst
dentigerous, July/Aug. 156
dermoid, of neck, true lateral, Mar./Apr. 57

D

Dental
anxiety (*see* Anxiety, dental)
education (*see* Education, dental)
fear, explaining treatment for, May/June 121-122
floss for interdental plaque removal, Nov./Dec. 274
management for stuttering children, Nov./Dec. 252
operator, scavenger system reducing N_2O in, Jan./Feb. 34
practices, effects of infection control on, July/Aug. 173
recommendations for the coming century, Nov./Dec. 246-247
school (*see* School, dental)

student (*see* Student, dental)
unit, tubing for, resisting contamination, Jan./Feb. 33-34

Dentifrice
fluoride, anticaries efficacy, Nov./Dec. 264-265
Peridex rinse with, Sept./Oct. 220-221

Dentigerous cyst, July/Aug. 156

Dentin
beneath occlusal fissures caries, Nov./Dec. 269-270
and enamel bonded composite resin restoration, Nov./Dec. 248-249
hypersensitivity, causes and treatments, Sept./Oct. 199
plug for extrusion prevention, May/June 129
resin hybrid layer, May/June 124-125
surfaces and hygiene instruments, May/June 135-136

Dentinogenesis imperfecta, July/Aug. 155

Dentist
future, education for, Mar./Apr. 66-67
office personnel assessing management skills of, July/Aug. 164

Dentistry
infection control for, in 1990s, Jan./Feb. 20-21
for inner cities, Sept./Oct. 240

Dentition: bruxing damaging, restoration, Sept./Oct. 207-208

Denture
abutment tooth, intentional replantation, May/June 103
identification, Sept./Oct. 205
interim, with vacuum machine, Nov./Dec. 253-254
partial, silica coated, for occlusal vertical dimension restoration, Jan./Feb. 13-14
provisional, during prosthesis construction, Mar./Apr. 62
taste acuity and, Sept./Oct. 228

Dermoid cyst: of neck, true lateral, Mar./Apr. 57

Dietary supplements: and fluoride, Nov./Dec. 265-266

Digital image texture analysis: of periapical bone lesions, Nov./Dec. 270

Digital technology: tapping of, Sept./Oct. 213

Dilaceration: of primary tooth, May/June 105

Disabled: chlorhexidine swabbing effective for, Sept./Oct. 230-231

Dislocation: TMJ recurrent, surgery of, May/June 103-104

DNA fingerprinting, July/Aug. 167

Dreams: as unpleasant, May/June 120

Drills, twist
for five pinholes, July/Aug. 183-184
for pinholes, May/June 138

Drugs
approval for life-threatening disease, May/June 140
oral ulcer due to, Jan./Feb. 11-12
prescription, cost of, Jan./Feb. 24
user, IV, prosthetic TMJ infected in, Mar./Apr. 63

E

Edentulous space: anterior, treatment, May/June 113-114

Education
dental
federal support for, Mar./Apr. 95-96
postdoctoral, fierce competition for seat, Sept./Oct. 212
reform and AADS, Sept./Oct. 212
for future dentists, Mar./Apr. 66-67

Elastomeric appliance: silicone, to close space, Jan./Feb. 9

Electrons: and spins, Sept./Oct. 214

Employee: performance appraisals for, Mar./Apr. 64-65

Enamel
bond, resin-etched, for veneers, May/June 125-126
and dentin bonded composite resin restoration, Nov./Dec. 248-249
microabrasion and bleaching for stained teeth, Sept./Oct. 205-206
spot lesions, fluoride to reduce, Sept./Oct. 227-228
surface texture, bleaching solutions not affecting, Jan./Feb. 41-42

Endodontics
anesthesia for, Sept./Oct. 196
flare-ups incidence, July/Aug. 178-180
in four canal tooth, successful, Jan./Feb. 5
treatment previous to two-material restoration, Nov./Dec. 248

Endosseous implant: placement guidelines, Mar./Apr. 55-56

Engineering: tissue, Nov./Dec. 260

Epstein-Barr virus: in leukoplakia, Sept./Oct. 224

Equilibration: in primary teeth, July/Aug. 151

Eruption
delay in molars and odontogenic lesions, May/June 122-123
early with advanced root development, May/June 105
pain, sequestrum, May/June 104-105

Esthetic restorations: home care regimens for, May/June 101

Etching: and bleaching technique, Mar./Apr. 89-90

Excimer laser, May/June 133-134, Sept./Oct. 215

Expansion: surgically assisted expansion technique a success, July/Aug. 185

Extraction: implant placement immediately after, Jan./Feb. 35-36

F

Face masks: in debris blocking, Mar./Apr. 75-76

Factor sleep, Jan./Feb. 25

Farsightedness: surgical correction, May/June 120

Fear: dental, explaining treatment for, May/June 121-122

Federal support: for dental education, Mar./Apr. 95-96

Fee: suing for, Sept./Oct. 209

Fenestration: surgical, of large periapical lesions, Jan./Feb. 5-6

Fibroma: peripheral odontogenic, July/Aug. 155-156

Fillings: marginal adaptation, polymerization rate reduction improving, Mar./Apr. 84-85

Firing: an employee, May/June 116

Fissure sealant: effectiveness of, Mar./Apr. 72

Flap: periodontal, May/June 107-108

Floss: dental, for interdental plaque removal, Nov./Dec. 274

Flu, Mar./Apr. 68-69

Fluconazole: for thrush in HIV, July/Aug. 187-188

Fluoride
clearance, oral soft tissues affecting, Sept./Oct. 218-219
dentifrice
anticaries efficacy, Nov./Dec. 264-265
brushing with, chemical composition of plaque after, Mar./Apr. 80
dietary supplements, Nov./Dec. 265-266
in enamel spot lesions, Sept./Oct. 227-228
in fruit juices, commercial, Mar./Apr. 76-77
gel treatments, recommended procedures, July/Aug. 148-149
inform^{ed} consent and, Jan./Feb. 21
update, Jan./Feb. 26-27
uptake and acidic calcium phosphate solution, Jan./Feb. 28

Food
sensitivity in recurrent ulcer, Mar./Apr. 83-84

stickiness, consumer perception of, Mar./Apr. 83
 Foreign body: found by dental tomograph, Mar./Apr. 61
 Fracture
 anterior, restoration of, PCR pin for, Sept./Oct. 206
 resistance of pins and adhesion promoters, Nov./Dec. 272
 root
 horizontal, healing of, July/Aug. 186
 vertical, successful treatment, Jan./Feb. 4-5
 Fruit juices: commercial, fluoride in, Mar./Apr. 76-77
 Funding: research in Russia, July/Aug. 168
 Furcation defects: collagen barrier for, Sept./Oct. 235

G

General practitioners: vs. pediatric practitioners, July/Aug. 169-170
 Genes: and alcoholism, July/Aug. 189-190
 Genetically altered organisms, Sept./Oct. 214-215
 Genetics: research in, July/Aug. 168
 Geriatrics (see Aged)
 Gingiva
 graft, free, for lichen planus, July/Aug. 159-160
 overgrowth
 cyclosporin in, Sept./Oct. 224-225
 nifedipine causing, May/June 106
 recession, orthodontic care and poor hygiene causing, Mar./Apr. 59
 Gingivitis: necrotic, therapy of tooth, May/June 108-109
 Glass
 ceramic inlay, pressed, good ratings, July/Aug. 182
 ionomer
 cement, repair, Nov./Dec. 266
 contrasted with resin, Jan./Feb. 41
 Global warming: and the ozone, July/Aug. 167-168
 Gloves
 latex, protecting against resinous materials, Nov./Dec. 267-268
 latex and polyvinyl, high defect rate with, Sept./Oct. 221-222
 rubber, allergic reactions to, Nov./Dec. 293
 Gold restorations: abrasiveness of, Jan./Feb. 38-39
 Gore-Tex: for ridge implants, Sept./Oct. 201
 Graft
 allograft for ridge implants, Sept./Oct. 201
 double-pedicle, root coverage in, Sept./Oct. 236
 gingival, free, for lichen planus, July/Aug. 159-160
 Granulocytic sarcoma: in leukemia, Mar./Apr. 58
 Grinding: safety of, Mar./Apr. 89
 Growth: mandibular advancement postsurgical, during adolescence, Jan./Feb. 30-31

H

HA-coated implant: and bone integration, Mar./Apr. 77
 Hair: loss of in men, Jan./Feb. 24
 Handpiece: daily maintenance reducing damage, July/Aug. 173-174
 Headache: research on, Mar./Apr. 93-94
 Headgear: high-pull, for class II open bite, Sept./Oct. 232
 Healing: of root fracture, horizontal, July/Aug. 186

Health
 care system of U.S. needing major surgery, Sept./Oct. 238-239
 periodontal, and margin placement, Mar./Apr. 61-62
 Heart
 disease and lipoprotein(a), Sept./Oct. 239
 Heart attack, Nov./Dec. 260
 Heat
 moist, for temporomandibular disorders, Mar./Apr. 86
 packs, reusable, for superficial heat, July/Aug. 148
 Heliomolar RO: resisting wear in conservative posterior restorations, Sept./Oct. 229
 Hemangioma: lip, cryosurgery for, Nov./Dec. 274
 Hemorrhage: coagulopathy in, Sept./Oct. 200
 Hepatitis
 B virus transmission prevention, update on CDC recommendations, Jan./Feb. 7-8
 viral, and aplastic anemia, Sept./Oct. 238
 Herpes simplex
 teething difficulty due to, Nov./Dec. 268-269
 virus in dental students, Sept./Oct. 211-212
 Hispanic children: and dentistry, Nov./Dec. 252-253
 HIV
 Histoplasma capsulatum and, oral, July/Aug. 156-157
 informed consent and, Jan./Feb. 21
 oral lesions associated with, management, Jan./Feb. 16-17
 periodontal disease has no relationship to, Sept./Oct. 230
 positive dental student, public response to treatment by, May/June 117
 saliva and, May/June 138-139
 thrush in, fluconazole for, July/Aug. 187-188
 transmission prevention, update on CDC recommendations, Jan./Feb. 7-8
 update on, Sept./Oct. 199-200
 oral conditions, treatment and the disease, July/Aug. 160-161
 (See also AIDS)
 HMOs: choosing and using, Nov./Dec. 278-279
 H₂O₂
 penetration, CEJ protective base layer reducing, July/Aug. 174
 radicular penetration of, Mar./Apr. 85
 Home
 care regimens, for esthetic restorations, May/June 101
 maintenance for implant care, Jan./Feb. 7
 shopping channels, Jan./Feb. 24-25
 Hot dogs: with milk, Mar./Apr. 68
 Hygiene
 instruments and dentin surfaces, May/June 135-136
 poor, causing gingival recession, Mar./Apr. 59
 Hypersensitivity: dentin, causes and and treatment, Sept./Oct. 199
 Hypertensive children, Mar./Apr. 69
 Hyposalivation care: milk for, Jan./Feb. 28-29

I

Immunocompromised patients: and oral infections, Nov./Dec. 254-255
 Impaction: of molars, permanent, Jan./Feb. 6-7
 Implant
 care, home maintenance for, Jan./Feb. 7
 for denture support, partial removable, July/Aug. 150-151
 endosseous, placement guidelines, Mar./Apr. 55-56
 failing, guided tissue regeneration aiding, Sept./Oct. 203
 HA-coated, and bone integration, Mar./Apr. 77
 immediately after extraction, Jan./Feb. 35-36
 osseointegrated
 masticatory movement adaptation after, Jan./Feb. 34-35
 periodontal prosthesis and, May/June 102

surgical guide for, Nov./Dec. 247
 ridge, allograft and Gore-Tex for, Sept./Oct. 201
 self-tapping, failing to reach proper depth, July/Aug. 172-173
 stabilizers, clinical report on, Nov./Dec. 248
 supported prosthesis, intraoral connection of attachments for, Mar./Apr. 54-55
 Implosion therapy and dental anxiety, Sept./Oct. 216
 Impression: cast, technique for adjacent veneers, Jan./Feb. 14-15
 Incisor: luxated, calcium hydroxide for, Sept./Oct. 232-234
 Infection control
 dental practices, July/Aug. 173
 for dentistry in 1990s, Jan./Feb. 20-21
 as higher mathematics, May/June 143
 Infectious disease: treating caries as, Nov./Dec. 244-45
 Influenza, Mar./Apr. 68-69
 Informed consent: amalgam, fluoride and HIV, Jan./Feb. 21
 Inlay
 ceramic pressed glass, good ratings, July/Aug. 182
 computer-designed, May/June 128-129
 Inner cities: dentistry for, Sept./Oct. 240
 Instrumentation: ultrasonic, guide to, Jan./Feb. 10-11
 Insurance: student accident, Jan./Feb. 25
 Interdental papilla: reconstruction of, Sept./Oct. 201-202
 Iodine: Lugol's iodine stain with toluidine blue, Sept./Oct. 225
 Irrigation device: oral, successful for subgingiva, Sept./Oct. 234-235

J

Jaw
 Kaposi's sarcoma of, May/June 114
 relation records, blackout technique for, Mar./Apr. 54
 Joint, temporomandibular (see Temporomandibular joint)

K

K files: endosonic, for curved canals, Sept./Oct. 218
 Kaposi's sarcoma: of jaw, intraosseous, May/June 114
 Kin selection, July/Aug. 167

L

Lake Chad mystery, May/June 141-142
 Laser, Jan./Feb. 47-48
 excimer, May/June 133-134, Sept./Oct. 215
 little lasers, May/June 119
 of root surfaces, Mar./Apr. 76
 Latex gloves
 with high defect rate, Sept./Oct. 221-222
 protecting against resinous materials, Nov./Dec. 267-268

Left-handedness, May/June 120
 Leukemia: granulocytic sarcoma in, Mar./Apr. 58
 Leukoplakia: viruses in, Epstein-Barr and papillomavirus, Sept./Oct. 224
 Licensure reform: and AADS, Sept./Oct. 212
 Lichen planus: gingival graft for, free, July/Aug. 159-160
 Limonin glucoside, Jan./Feb. 24
 Liners: adhesive, incorporating into amalgam, Jan./Feb. 42-43
 Lip hemangioma: cryosurgery for, Nov./Dec. 274
 Lipoprotein(a): in heart disease, Sept./Oct. 239
 Lugol's iodine stain: with toluidine blue, Sept./Oct. 225
 Lunch
 for the dentist, July/Aug. 167
 programs, school, Mar./Apr. 93
 Lymphadenectomy: step change saves time in, Sept./Oct. 219

M

Malocclusion: correction in growing patients, July/Aug. 177
 Managed care plans: choosing and using, Nov./Dec. 278-279
 Mandible: advancement postsurgical growth during adolescence, Jan./Feb. 30-31
 Manual: office, for team effectiveness, July/Aug. 164-165
 Margin placement: in periodontal health, Mar./Apr. 61-62
 Masks
 affecting children, May/June 121
 face, in debris blocking, Mar./Apr. 75-76
 Mastication: movement adaptation after osseointegrated implants, Jan./Feb. 34-35
 Mathematics: higher, infection control as, May/June 143
 Maxilla
 anterior area, modified technique for, July/Aug. 151-153
 obturator prosthesis, retainer for, Jan./Feb. 13
 Medical history: complete, obtaining, Nov./Dec. 257
 Medication (see Drugs)
 Melanosis: smoker's, Jan./Feb. 10
 Memory loss: brain working during, Sept./Oct. 214
 Mercury
 amalgam-derived, Sept./Oct. 196-197
 blood mercury concentrations and spills, July/Aug. 183
 toxicity, risk to amalgam patients, Jan./Feb. 38
 vapor, intraoral, measurements, Sept./Oct. 222-223
 Metal
 partial crowns, adhesive, in attrition defect restoration, July/Aug. 161
 workers, robots as, May/June 119
 Metronidazole: in root surface debridement, July/Aug. 186-187
 Mice: saving lives, May/June 142
 Milk
 in hot dogs, Mar./Apr. 68
 for hyposalivation care, Jan./Feb. 28-29
 preserving periodontal ligament cells in exarticulated teeth, Sept./Oct. 200-201
 Model
 caries prediction, geriatric, Mar./Apr. 73-74
 predictive, Jan./Feb. 17-18
 Molars
 eruption delay and odontogenic lesions, May/June 122-123
 furcation areas, orthodontic treatment not effecting, Nov./Dec. 276
 permanent
 first, primary teeth caries predicting caries in, Sept./Oct. 216-217
 impaction, Jan./Feb. 6-7
 occlusal surface management in children, Jan./Feb. 9-10
 third, prophylactic removal, July/Aug. 149

 tipped abutment tooth, realignment of, Jan./Feb. 12-13
 Monitoring: of bleaching, Sept./Oct. 209-210
 Motivation: of staff members by area management, Mar./Apr. 64
 Mouthrinse
 additive, before brushing, Mar./Apr. 88-89
 fighting oral odor for 10 hours, May/June 126
 vegetable-oil-based, Nov./Dec. 273
 Multidisciplinary effort: for lesion treatment, Jan./Feb. 14
 Myocardial infarction, Nov./Dec. 260
 Myopia: new treatment for, Nov./Dec. 261

N

Naproxen: use guidelines, Sept./Oct. 203
 Neck: dermoid cyst, true lateral, Mar./Apr. 57
 Necrotic gingivitis: therapy for tooth, May/June 108-109
 Necrotizing sialometaplasia, May/June 104
 Needle tip placement: not affecting sectional technique sealing, Sept./Oct. 217-218
 Neutral zone: affected edentulousness, Nov./Dec. 268
 Nifedipine: inducing gingival overgrowth, May/June 106
 Nitrous oxide: for children, Mar./Apr. 70
 N₂O: scavenger system reducing in dental operator, Jan./Feb. 34

O

Occlusion
 surface management in permanent molars in children, Jan./Feb. 9-10
 vertical dimension restoration with silica coated partial denture, Jan./Feb. 13-14
 Odontogenic
 fibroma, peripheral, July/Aug. 155-156
 lesions in molar eruption delay, May/June 122-123
 Office
 manual for team effectiveness, July/Aug. 164-165
 personnel, assessing management skills of dentists, July/Aug. 164
 Onlay: amalgam technique, modification, Jan./Feb. 15-16
 Open bite
 class II, activator and high-pull headgear for, Sept./Oct. 232
 periodontal disease causing, May/June 106-107
 Operator: dental, scavenger system reducing N₂O in, Jan./Feb. 34
 Optical testing: of approximal caries, Mar./Apr. 72-73
 Oral
 candidiasis, May/June 100
 conditions in HIV, July/Aug. 160-161
 Histoplasma capsulatum and HIV, July/Aug. 156-157
 infection and immunocompromised patients, Nov./Dec. 254-255
 intraoral connection of attachments for implant supported prosthesis, Mar./Apr. 54-55
 lesions associated with HIV infection, Jan./Feb. 16-17
 manifestations of vitamin deficiency in aged, Jan./Feb. 17
 ulcer due to medication, Jan./Feb. 11-12
 Orange juice, Jan./Feb. 24
 Orbit: cellulitis, complications from, Mar./Apr. 56-57

Orofacial pain: teaching students about, Sept./Oct. 211
 Orthodontic
 care causing gingival recession, Mar./Apr. 59
 treatment
 adults differing from adolescents, May/June 134-135
 not effecting molar furcation areas, Nov./Dec. 276
 provisional restoration during, May/June 109
 Orthodontically treated teeth: conservative therapy for, May/June 100-101
 Osseointegrated implant (see Implant, osseointegrated)
 Osteitis: postop alveolar, chlorhexidine for, Mar./Apr. 90-91
 Outlawing: amalgam, July/Aug. 191-192
 Ozone: and global warming, July/Aug. 167-168

P

Pain
 eruption, sequestrum, May/June 104-105
 management in TMD, Nov./Dec. 252
 orofacial teaching students about, Sept./Oct. 211
 postoperative
 amalgam vs. composite resin, Jan./Feb. 43-44
 control guidelines, Nov./Dec. 250-251
 Palate
 expansion, outpatient treatment, May/June 131
 injection into, technique to reduce discomfort, Nov./Dec. 244
 palatally impacted maxillary canines, Nov./Dec. 249-250
 Panorex: uses in military, May/June 126-127
 Papillomavirus: in leukoplakia, Sept./Oct. 224
 Parkinson's disease: scientists search for cure, Jan./Feb. 45
 PCR pin: for anterior fracture restorations, Sept./Oct. 206
 Pediatric practitioners: vs. general practitioners, July/Aug. 169-170
 Penicillin, Mar./Apr. 68
 Performance appraisals: for employee and practice, Mar./Apr. 64-65
 Periapical lesions
 bone, digital image texture analysis, Nov./Dec. 318
 large, surgical fenestration of, Jan./Feb. 5-6
 Peridex rinse: with dentifrice, Sept./Oct. 220-221
 Periodontal
 cause of relapse, July/Aug. 180-181
 diagnostic test, value of, May/June 131-132
 disease
 advanced, remodeling vessels in, Mar./Apr. 84
 destructive, standard to indicate absence, Jan./Feb. 44
 new technologies for diagnosis and treatment, July/Aug. 157-159
 no relationship to HIV, Sept./Oct. 230
 open bite due to, May/June 106-107
 flap, May/June 107-108
 health, and margin placement, Mar./Apr. 61-62
 ligament cells, milk preserving, in exarticulated teeth, Sept./Oct. 200-201
 pathogens in diagnosis, Sept./Oct. 223-224
 prosthesis and osseointegrated implant, May/June 102
 scaling gel harmless to structures, Sept./Oct. 223
 treatment
 surgical alternatives in, July/Aug. 153-154
 tetracycline fibers in, May/June 137
 Periodontitis
 generalized juvenile, Jan./Feb. 11
 smoking and, May/June 136-137
 Periotest results: and bone loss, Nov./Dec. 264
 Personality: no effect of dental school on, Nov./Dec. 258

Personnel: office, assessing management skills of dentists, July/Aug. 164

pH: of plaque, and chewing gum, Nov./Dec. 262-263

Physical problems: children with, Mar./Apr. 60-61

Pin: fracture resistance of, and adhesion promoters, Nov./Dec. 320

Pit and fissure sealant: effectiveness of, Mar./Apr. 72

Plaque

- chemical composition after brushing with fluoride dentifrice, Mar./Apr. 80
- control reducing nifedipine-induced gingival overgrowth, May/June 106
- interdental, removal with dental floss, Nov./Dec. 274
- pH and chewing gum, Nov./Dec. 262-263
- removal, interdental brush for, Mar./Apr. 88

Pocketing: tissue regeneration for, May/June 107

Pockets

- deep, not reached in non-surgical treatment, July/Aug. 184-185
- probing to measure bone loss, Nov./Dec. 269

Pollution politics, July/Aug. 168

Polymerization rate: reduction improving marginal adaptation of fillings, Mar./Apr. 84-85

Polyvinyl gloves: with high defect rate, Sept./Oct. 221-222

Porcelain veneers: matching color, Mar./Apr. 62-63

Post: threaded, placement, strains generated during, Mar./Apr. 79-80

Postoperative pain (see Pain, postoperative)

Practice

- management ideas from past not achieving growth, May/June 116
- performance appraisals and, Mar./Apr. 64-65

Predictive model, Jan./Feb. 17-18

Pregnancy: rule toward treatment during, Sept./Oct. 229-230

Preprosthetic surgery: reducing atrophy, Nov./Dec. 275

Prescription drugs: cost of, Jan./Feb. 24

Price wars, Jan./Feb. 25

Probing forces: attachment gain shows effect of, Nov./Dec. 275-276

Prognosis: hopeless, restoration of teeth with, Jan./Feb. 16

Program directors: surveyed on attitudes toward women residents, Nov./Dec. 258-259

Prosthesis

- construction, provisional denture during, Mar./Apr. 62
- implant supported, intraoral connection of attachments for, Mar./Apr. 54-55
- maxillary obturator, retainer for, Jan./Feb. 13
- partial, complete and fixed, life span of, Nov./Dec. 253
- periodontal, and osseointegrated implant, May/June 102
- preprosthetic surgery reducing atrophy, Nov./Dec. 275
- temporomandibular joint infected by IV drug user, Mar./Apr. 63

Proximal retention grooves: taught at dental schools, July/Aug. 166

Psychologic problems

- children with, Mar./Apr. 60-61
- short-term therapy for, Jan./Feb. 46

Public relations staff member: increasing new patients, Sept./Oct. 210

Pulp

- damage by bleaching gel, Nov./Dec. 254
- tests, dental instruments used as bridge for, May/June 122

R

Radiography: to measure bone loss, vs. pocket probing, Nov./Dec. 269

Radiologic practices: in U.S. dental schools, Jan./Feb. 23

Radiotherapy: treatment of patients receiving, July/Aug. 162-163

Realignment: of tipped molar abutment tooth, Jan./Feb. 12-13

Recall intervals: 2-year, increase short-term productivity with, Nov./Dec. 245

Recession: tissue regeneration for, May/June 107

Reconstruction: of interdental papilla, Sept./Oct. 201-202

Refugee children: in American schools, May/June 140-141

Replantation: of denture abutment tooth, May/June 103

Research

- in genetics, July/Aug. 168
- in Russia, funding, July/Aug. 168

Residency training: additional, benefits of, Jan./Feb. 22

Residents: women, attitudes of program directors toward, Nov./Dec. 258-259

Resin

- cements as more retentive than zinc phosphate, Sept./Oct. 219-220

composite

- with amalgam, May/June 112
- bleaching agents damaging, Nov./Dec. 267
- curing, May/June 111
- margins, eliminating microleakage, Nov./Dec. 266
- veneers, fabrication technique, July/Aug. 161-162
- vs. amalgam and postoperative pain, Jan./Feb. 43-44
- contrasted with glass ionomer, Jan./Feb. 41
- dentin hybrid layer, May/June 124-125
- dental and enamel bonded composite, restoration, Nov./Dec. 248-249
- etched enamel bond for veneers, May/June 125-126
- latex gloves protecting against resinous materials, Nov./Dec. 267-268
- restoration, preventive, technique and rationale, Sept./Oct. 206-207

Restoration

- attrition defects, with adhesive metal partial crowns, July/Aug. 161
- ceramic, abrasiveness of, Jan./Feb. 38-39

composite

- carbamide peroxide adversely affecting, Sept./Oct. 228-229
- posterior, indications for use, Mar./Apr. 53-54
- conservative posterior, Heliomolar RO resisting wear in, Sept./Oct. 229
- dental and enamel bonded composite resin, Nov./Dec. 248-249
- dentition damage by bruxing, Sept./Oct. 207-208
- endodontic treatment previous to, Nov./Dec. 248
- esthetic, home care regimens for, May/June 101
- of fracture, anterior, PCR pin for, Sept./Oct. 206
- gold, abrasiveness of, Jan./Feb. 38-39
- intermediate restorative material, bleaching agent leaking through, Mar./Apr. 79
- in mature patients, Nov./Dec. 247-248
- provisional

method, Nov./Dec. 253

- during orthodontic treatment, May/June 109

resin, preventive, technique and rationale, Sept./Oct. 206-207

- sealed, as effective, July/Aug. 175-176
- stress and cavity depth, May/June 128
- of teeth with hopeless prognosis, Jan./Feb. 16

Retainer: for maxillary obturator prosthesis, Jan./Feb. 13

Retention grooves: proximal, taught at dental schools, July/Aug. 166

Ridge implant: allograft and Gore-Tex for, Sept./Oct. 201

Robots: as metal workers, May/June 119

Root

- canal
- bacteria, irrigation variables studies on, July/Aug. 171
- curved, precure endosonic K files for, Sept./Oct. 218
- obstructions, nonconventional removal, Mar./Apr. 52-53
- preparation methods, comparison of, May/June 130-131
- successful endodontics in tooth with four canals, Jan./Feb. 5
- caries, factors in, Mar./Apr. 74
- coverage in double-pedicle graft, Sept./Oct. 236
- development, advanced, and early eruption, May/June 105
- fracture (see Fracture, root)
- surfaces
- cervical, effects of bleaching on, July/Aug. 171-172
- debridement, metronidazole after, July/Aug. 186-187
- laser of, Mar./Apr. 76

Rubber

- dam, improper use, tooth loss due to, May/June 102-103
- gloves, allergic reactions to, Nov./Dec. 245

Russia: research in, funding of, July/Aug. 168

S

Saliva

- HIV and, May/June 138-139
- rates, compared by age, Nov./Dec. 263

Sarcoma

- granulocytic, in leukemia, Mar./Apr. 58
- Kaposi's, of jaw, May/June 114

Scaling gel: periodontal, harmless to structures, Sept./Oct. 223

Scavenger system: to reduce N_2O in dental operator, Jan./Feb. 34

School

- American, refugee children in, May/June 140-141
- dental
- blood screening studies in, May/June 117-118
- no effect on personality, Nov./Dec. 258
- radiologic practices in, Jan./Feb. 23
- lunch programs, Mar./Apr. 93

Scientific cheaters, Mar./Apr. 68

Sealant

- adoption of, Mar./Apr. 70-71
- pit and fissure, effectiveness of, Mar./Apr. 72

Sealer: apatite, Nov./Dec. 267

Sealing: of sectional technique not affected by needle tip placement, Sept./Oct. 217-218
 Sectional technique: sealing not affected by needle tip placement, Sept./Oct. 217-218
 Sedation: conscious, and general anesthesia, Jan./Feb. 4
 Sialometaplasia: necrotizing, May/June 104
 Silica coated partial denture: for occlusal vertical dimension restoration, Jan./Feb. 13-14
 Silicone elastomeric appliance: to close space, Jan./Feb. 9
 Sleep: factor, Jan./Feb. 25
 Smoker's melanosis, Jan./Feb. 10
 Smoking: and periodontitis, May/June 136-137
 Snoring, Nov./Dec. 260-261
 Sodium
 hypochloride, inadvertent injection in cheek, Mar./Apr. 52
 perborate, with water for bleaching, Jan./Feb. 40-41
 Soft tissue: oral, affecting fluoride clearance, Sept./Oct. 218-219
 Soybeans, Nov./Dec. 261
 Spills: and blood mercury concentrations, July/Aug. 183
 Spins: and electrons, Sept./Oct. 214
 Splint
 cross-arch bar, May/June 109-110
 flat occlusal, Nov./Dec. 274-275
 nocturnal, May/June 137-138
 Stabilizers: for implant, clinical report on, Nov./Dec. 248
 Staff members: boredom and motivation in, and area management, Mar./Apr. 64
 Stained teeth: enamel microabrasion and bleaching for, Sept./Oct. 205-206
 State to state variations: in board exam pass rates, Nov./Dec. 246
 Sterilization
 of air-water syringe tips, May/June 124
 methods, effectiveness of, Mar./Apr. 78
 Sterilizer failure: rates and reasons, Nov./Dec. 263
 Streptococci: mutans, chlorhexadine varnish suppressing, July/Aug. 177
 Student, dental
 accident insurance, Jan./Feb. 25
 herpes simplex virus in, Sept./Oct. 211-212
 HIV positive, public response to treatment by, May/June 117
 seniors saying curriculum is adequate, May/June 118
 teaching about TMD and orofacial pain, Sept./Oct. 211
 Stuttering children: dental management, Nov./Dec. 252
 Suing: for fee, Sept./Oct. 209
 Syringe tips: air-water, sterilization of, May/June 124

T

Tamoxifen, Jan./Feb. 24
 Tapping: of digital technology, Sept./Oct. 213
 Taste acuity: and dentures, Sept./Oct. 228
 Teaching students: about TMD and orofacial pain, Sept./Oct. 211
 Team: effectiveness, and office manual, July/Aug. 164-165

Technology: digital, tapping of, Sept./Oct. 213
 Teeth
 for denture support, partial removable, July/Aug. 150-151
 loss due to improper rubber dam use, May/June 102-103
 primary, dilaceration of, May/June 105
 Temporomandibular disorders
 moist heat for, Mar./Apr. 86
 pain management, Nov./Dec. 252
 survey of, Mar./Apr. 87-88
 teaching students about, Sept./Oct. 211
 dysfunction, Jan./Feb. 19
 other conditions imitating, May/June 115
 variations in patients, Mar./Apr. 86-87
 joint
 diagnosis, clinical diagnosis not precise in, Sept./Oct. 231
 dislocation, surgery of, May/June 103-104
 pain masking other disease entities, Mar./Apr. 58-59
 prosthetic, infected in IV drug user, Mar./Apr. 63
 signs and symptoms, examiner comparison, May/June 129-130
 subluxation, surgery of, May/June 103-104
 Tetracycline fibers: in periodontal treatment, May/June 137
 Thrush: in HIV, fluconazole for, July/Aug. 187-188
 Tissue
 engineering, Nov./Dec. 260
 regeneration
 to enhance anterior esthetics, July/Aug. 157
 guided, aiding failing implant, Sept./Oct. 203
 for recessing and pocketing, May/June 107
 TM (see Temporomandibular)
 TMJ (see Temporomandibular joint)
 Toluidine blue: with Lugol's iodine stain, Sept./Oct. 225
 Tomography: dental, finding foreign body, Mar./Apr. 61
 Tongue: ulcer after trauma, Sept./Oct. 198-199
 Tooth (see Teeth)
 Toothbrush (see Brush)
 Toothbrushing (see Brushing)
 Toxicity: mercury, risk to amalgam patients, Jan./Feb. 38
 Training: additional residency, benefits of, Jan./Feb. 22
 Transplantation: carcinoma after, squamous cell, July/Aug. 154
 Trauma: and primary tooth treatment, effects on successors, July/Aug. 182-183
 Treatment of lesion: multidisciplinary effort for, Jan./Feb. 14
 Tubing: for dental unit resisting contamination, Jan./Feb. 33-34
 Twist drills (see Drills, twist)

U

UCLA abutment: advantages and disadvantages, July/Aug. 149-150
 Ulcer

oral, due to medication, Jan./Feb. 11-12
 recurrent, food sensitivity in, Mar./Apr. 83-84
 of tongue after trauma, Sept./Oct. 198-199
 Ultrasound: instrumentation for, guide to, Jan./Feb. 10-11

V

Vaccinations, May/June 120
 Vacuum machine: for interim denture, Nov./Dec. 253-254
 Varnish: chlorhexadine, suppressing mutans Streptococci, July/Aug. 177
 Vasoconstrictor interactions: with antidepressants, Sept./Oct. 204
 Vegetable oil-based mouthrinse, Nov./Dec. 273
 Veneer
 adjacent, cast impression technique for, Jan./Feb. 14-15
 CAD-CAM, Sept./Oct. 221
 composite resin, fabrication technique, July/Aug. 161-162
 porcelain, matching color, Mar./Apr. 62-63
 resin-etched enamel bond for, May/June 125-126
 techniques, comparison of, May/June 127-128
 Vessels: remodeling in periodontal disease, Mar./Apr. 84
 Viruses
 Epstein-Barr, in leukoplakia, Sept./Oct. 224
 hepatitis due to, and aplastic anemia, Sept./Oct. 238
 papillomavirus in leukoplakia, Sept./Oct. 224
 Vitamin deficiency: oral manifestations, in aged, Jan./Feb. 17

W

Women residents: attitudes of program directors toward, Nov./Dec. 258-259

Z

Zinc phosphate: resin cements as more retentive than, Sept./Oct. 219-220
